

DMG, H3 K28

Number at risk

The figure displays a heatmap of daily case counts across five regions. The y-axis labels include the region name and its total case count: EFS:AFR (7), EFS:AMR (14), EFS:EAS (4), EFS:EUR (43), and EFS:SAS (2). The x-axis represents time in days, ranging from 0 to 4000. The heatmap uses a color gradient where darker shades of blue indicate higher case density. Most regions show very low case counts throughout the period, with EFS:EUR having the highest total count.

Region	Total Cases
EFS:AFR	7
EFS:AMR	14
EFS:EAS	4
EFS:EUR	43
EFS:SAS	2
